

## **Introduction to Procurement (SA Govt) – ONLINE**

### **Description**

This course provides an introduction to procurement and specifically focuses on the legislation, regulation and policies that apply to procurement in the South Australian Government.

The course explains in clear language what is required to comply and provides tips and suggestions to make the whole procurement process easy to understand and less stressful. The course is based on 15 years' of hands-on procurement experience across federal, state and local government.

This course specifically covers:

- The State Procurement Act 2004 and State Procurement Regulations 2005
- State Procurement Board Policies and Guidelines
- Achieving Value for Money in procurement
- Procurement methods and policies that apply to Simple Procurement (value under \$550,000)

### **Who should attend**

The course is designed for those new to government procurement that need to be across SA specific policies and procedures, or for those people that have procurement as part of their job.

### **Learning Outcomes**

On completion of this course participants will be able to:

- Describe SA Government procurement legislation, policies & guidelines;
- Explain procurement principles for the SA Govt
- Describe simple procurement thresholds and methods.
